

# Life Safety Considerations During The Management of COVID-19

JUNE 11, 2020

CHCA Digital Classroom

11:00 AM - 12:30 PM

\$50

TARGET AUDIENCE:  
General Audience

## Course Content Will Include

This interactive presentation for ALL long term care facilities— assisted living and skilled nursing—will address critical Life Safety considerations during the management of an infectious disease outbreak like COVID-19. Several Life Safety issues have emerged due to nationwide “shelter-in-place” orders that have impacted Life Safety Code compliance (NFPA 101, 2012 edition as enforced by CMS). The webinar will give attendees the opportunity to hear common issues with Life Safety Code compliance during the management of an infectious disease outbreak, as well as learn potential solutions to help ensure a safe and compliant environment of care.

## Objectives:

- Conducting Fire Drills
- Emergency Operation Plan—Modifications/Additions
- Alcohol-based hand rub solution—Utilization and Storage
- Storage Practices – Change of Use
- Means of Egress
- Isolation Areas
- And much more!

Registration and participation in this webinar also provides email and/or telephone access to Stan Szpytek until August 31, 2020 for assistance meeting your communities needs.

## SPEAKER:

Stan Szpytek is the President of Fire and Life Safety, Inc. (FLS) and a founding member of the Emergency Management Alliance (EMA). FLS is a consulting firm that provides life safety, risk management, and emergency preparedness programs for providers of all types with special focus on long term care facilities and senior services. Mr. Szpytek is a former deputy fire chief and fire marshal with a Chicago area fire department having served the community for 26 years and honorably retired in 2003. He is also the Life Safety/ Disaster Planning Consultant for the Arizona Health Care Association (AzHCA) and California Association of Health Facilities (CAHF) and works with several state health care associations around the country.
