

## Impact, Interventions and Approaches to Trauma With a Focus on Covid Trauma

JULY 23, 2020

10:00 AM - 11:30 AM

Free

**TARGET AUDIENCE:**

Social Service Professionals, & Interdisciplinary Teams

With the new regulations regarding Trauma-Informed Care, we want to take this opportunity to discuss trauma, different types of trauma, and best-practices for providing effective, and compassionate trauma-informed care.

With the current COVID pandemic, the stress, anxiety and depression caused by isolation is potentially retraumatizing residents who have a history of trauma. Therefore, it is critically important during this time, for communities to provide the best possible care and services to address these past and current traumas.

During this webinar, we will discuss the impacts of trauma, and more importantly, interventions, approaches and strategies that communities can implement in order to provide effective trauma-informed care.

We hope that this webinar will be interactive, that ideas can be shared, and networks developed in order to support the residents, families and staff during this unprecedented and difficult time.

**Presented and Sponsored By: Katayama-Dell Consulting**

CHCA WEBINAR

**SPEAKERS:**

**Jan Katayama**, LCSW, received her Master's degree in Social Work from the University of Denver. She has been a social work consultant with an emphasis on psycho-social, now resident centered care, since 1988. Over Jan's career she has worked in numerous departments in facilities. Jan also was the PASRR Coordinator for Denver for 7 years.

**Tana Dell** has worked in long-term care for over 30 years. She earned a Bachelor's Degree in Psychology from the University of Colorado, and a Master's Degree in Social Work from Colorado State University. She was a long-term care surveyor for three and half years, and currently is co-owner of Katayama-Dell Consulting, which provides social work consultation to 80+ facilities in Colorado.
