Assisted Living Conference Sponsors

Sponsorship Opportunities

Help support CHCA Long-Term Care Communities by being a sponsor at the 2024 Assisted Living Conference. Sponsorship opportunities put your products and services directly before our facility members. Your company name will be displayed on all posters and announced during the conference. Please submit the [Assisted Living Sponsorship Form](#) if your organization would like to support this event. Please contact [Bonita Jones](#), VP of Operations, if you require assistance.

Programs

Assisted Living National Update

Speaker: LaShuan Bethea, ED, AHCA/NCAL

LaShuan Bethea, Executive Director of NCAL, will give a national update on the sector and NCAL’s priorities and key initiatives to advance the profession.

Dementia: The Past, Present, and Future of Care in the ALF Arena

Speaker: Dr. Marques, Summit Medical Consulting

Dementia has long been a large focus in the world of research, pharmacology, and diagnostics. Yet, this disease process remains in its own twilight zone of difficulty for treatment and even diagnosis. For clinicians in the Assisted Living and Long-term Care world, dementia is integral to our patient population contributing to all parts of their lives and other comorbidities. In this session, we will analyze dementia from both the perspective of the patient and provider. Our goal for this discussion will be gaining a deeper understanding of the disease burden on patients and applying the research we have to maximize care within our typical multidisciplinary team model.

CDPHE Survey Overview and Regulatory Updates

Speaker: Jane Flourney, Colorado Dept. of Public Health & Environment

This breakout session will provide attendees with an overview of the CDPHE survey process, as well as updates about applicable regulations for Assisted Living Residences and Alternative Care Facilities.

The Nuts and Bolts of Pharmacy Management

Speakers: Doris Page, PharmcareUSA

This session will include reviewing hazardous waste, preventing regulatory deficiencies, medication storage, administration management, auditing and optimizing your pharmacy service in all aspects of your medication management program

Pillars of Performance: Cultivating Leaders

Speaker: Chris Ross, Legacy Healthcare Consulting

The session presented by Legacy Healthcare Consulting will focus on the critical importance of a positive work culture and environment for residents, families, and staff. We will aim to highlight the areas of building trust, clear & consistent communication, and leading by example while having fun in a supportive environment. As an organization we approach each of our opportunities with Legacy’s Pillars of Performance as our guide. Our Pillars are People, Product, Process, and Plan. Over time, we have found that as we focus on our Pillars of Performance we always end in the same happy place, fulfillment of our Purpose! Our intention will be to illustrate the fact that Culture is a perishable skill, it takes a tremendous team effort to achieve and an equal effort to maintain a strong culture. Much like personal health, a positive culture is incredibly difficult to achieve & maintain, however it is much more difficult to operate without it, you get to choose your hard.
